An efficient approach for determining a worth is to send out a survey to your current customers. If these customers have already bought an ebook from you, ask for their opinion when it comes to price. Do this by creating a gross sales page for the new guide, but don't embody a value on that page. As an alternative, add quite a lot of links to survey questions that ask pointed questions to aid you in assigning a price to your ebook.

Another technique is to check out prices by creating a number of duplicate sales pages with different prices on each page. Be sure your gross sales copy is strictly the identical on every page, and consists of your promoting-handle sentence. Then work out for each page the conversion ratio between visitors to your website and sales of your book. This may let you know what your optimum price is.

Ultimately, in the event you've written a guide that solves a drawback or presents a brand new approach, your guide will usher in each site visitors and profits.
