An efficient approach for figuring out a price is to ship out a survey to your current customers. If these clients have already bought an e book from you, ask for his or her opinion in terms of price. Do that by creating a sales web page for the new ebook, but do not embrace a worth on that page. As an alternative, add a lot of hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

One other technique is to check out costs by making a number of duplicate sales pages with different prices on every page. Ensure your gross sales copy is precisely the similar on each web page, and

contains your promoting-handle sentence. Then work out for each web page the conversion ratio between visitors to your site and sales of your book. This will let you know what your optimum price is.

In the end, for those who've written a e book that solves a downside or presents a new technique, your e-book will herald both site visitors and profits.
