One is to give something away without cost along with your guide, such as a helpful bonus item. Or bundle several ebooks below one price, which lowers the value for every e-book in the event that they were sold separately.

An effective technique for determining a price is to ship out a survey to your present customers. If these clients have already bought an e book from you, ask for his or her opinion in terms of price. Do that by creating a gross sales page for the brand new guide, but do not embrace a value on that page. Instead, add a lot of links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

One other technique is to check out prices by creating a number of duplicate sales pages with completely different costs on each page. Make sure that your sales copy is exactly the same on each page, and contains your selling-handle sentence. Then work out for every page the conversion ratio between visitors to your site and gross sales of your book. It will inform you what your optimum worth is.

In the end, if you've written a e book that solves a drawback or presents a brand new method, your e book will bring in each visitors and profits.
