But the truth that unites ebooks and print books is that they are composed of ideas. It's the ideas in these books that have the ability to alter, or presumably transform, individuals's lives.

What do you suppose an concept is worth when evaluated in opposition to the cost of paper and ink?

Nevertheless, in case your e book contains priceless ? and extra importantly NEW data, references, or techniques ? then you should aim to price it on the high end.

After you figure out your objective, it's essential to work out what your viewers's want is for your ebook. For example, does your e book clear up a particular downside? If it does, and solves it in a means that hasn't been written about in 100 other ebooks, you can be in a position to achieve high sales at a high price. If your guide solves a problem or answers questions in a brand new and unique approach, you should price your book as high as you'll be able to go. You'll obtain larger earnings this way, but bring in fewer customers. Just make sure that the query or drawback that your e-book solves is one that is essential and related to nearly all of your market audience. page, and contains your promoting-handle sentence. Then figure out for each page the conversion ratio between visitors to your website and gross sales of your book. This will let you know what your optimum worth is.

Ultimately, when you've written a ebook that solves a downside or presents a new technique, your book will usher in both traffic and profits.
