An effective approach for figuring out a price is to ship out a survey to your current customers. If these customers have already bought an ebook from you, ask for their opinion when it comes to price. Do that by creating a gross sales web page for the brand new e-book, however don't include a worth on that page. As an alternative, add a variety of links to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

Another technique is to test out prices by creating a number of duplicate sales pages with completely different costs on each page. Ensure your sales copy is exactly the same on every web

page, and contains your selling-deal with sentence. Then work out for each web page the conversion ratio between visitors to your site and gross sales of your book. This can tell you what your optimum worth is.

Finally, if you happen to've written a guide that solves a problem or presents a new approach, your book will bring in each traffic and profits. So be sure to write that selling-deal with sentence that sums up what drawback your ebook solves and what the advantages of your 457 e book will be to the customers who buy it. And then watch your market come to you!
